### **Eriez® Grows in Erie by Purchasing a Building on Wager Road to Support Company's Growth**

Erie, Pa. — Eriez® today announced the company has purchased a 114,000 square foot building that is approximately 15 miles from its Asbury Road World Headquarters facility. The new building, located at 1901 Wager Road in Erie, will house the company's 5-Star Service™ Center and handle manufacturing of Eriez' largest and hottest selling equipment including Metals Recovery Systems, Column Flotation Cells and Hydroflow® Fluid Filtration and Recycling Equipment.

"We completed a plant expansion in 2006 that took our Asbury Road Headquarters to more than 130,000 square feet," says Tim Shuttleworth, Eriez President and CEO. "However, the space could not sufficiently accommodate our incredible growth in manufacturing volume or our 5-Star Service Center. Because of this, we have had to utilize rental facilities in Toledo, Ohio and Lake City. The purchase of this new building will enable us to streamline our operations by bringing several functions that are currently contract operations to one central location and add to the Eriez team."

According to Eriez, the staff at the new Wager Road facility will be made up of a combination of new hires and existing Headquarters employees. "So far in 2011 Eriez Headquarters has added 33 new employees," says Shuttleworth. "A number of these new employees will be moving to our new space. We look forward to continuing to grow here. Erie is our home."

"We are extremely fortunate to report that despite the economic climate, Eriez is setting records for sales and orders," Shuttleworth comments. "We continue to develop cutting-edge products, enabling us to remain a leader in the many industries we serve. At Eriez, we believe innovation is the key to success, but value and great customer service are just as important."

Eriez manufactures and markets its products through twelve international facilities located on six continents. The company isn't just growing in Erie, it's expanding operations around the world. The company's operations in Canada, China and India will be moved from existing facilities to larger buildings in the area to meet Eriez' growing order demand overseas.

Eriez also announced a renovation is scheduled for its Asbury Road Headquarters. "We will double the size of our break area/common area and make various decorative changes and upgrades," says Shuttleworth. The Headquarters renovation is slated to begin later this year.

-More-
